Denison University,

GRANVILLE, OHIO,

FOR THE YEAR ENDING NOVEMBER 29, A. D., 1854.

COLUMBUS:
PRINTED BY THE OHIO STATE JOURNAL COMPANY.

1854.

NAME.

THIS Institution, till recently, has been known as GRANVILLE COLLEGE; and, even now, its financial operations are conducted under that title. But the Trustees have, in honor of WILLIAM S. DENISON, Esq., a liberal donor to its funds, unanimously resolved to change its name to DENISON UNIVERSITY. As soon as the proper legal sanction can be obtained to this act, all its operations will be conducted under this title.

SCIENTIFIC COURSE.

This course of studies is designed to furnish a suitable education to those who are fitting themselves for business men, for engineers, or to engage in mercantile or mechanical pursuits. Those sciences which are adapted to fit them for their chosen pursuits, will, in their case, take the place of the ancient classics. It may be expected, therefore, that upon such as complete this course of studies, the honors of the College will be bestowed, and the degree of Bachelor of Sciences conferred.

AGRICULTURAL DEPARTMENT.

The Trustees have resolved to establish an Agricultural Department, in which the best facilities for obtaining a knowledge of the science of agriculture shall be afforded, consisting of lectures, experiments, and general instruction in those sciences which have a more direct relation to this important branch of industry; embracing a period of fifteen weeks, during the second term of each year.

Instruction in this department will, therefore, commence about the first of December in each year, and close about the middle of March. It will afford the sons of farmers, and others, an opportunity to spend the winter months in listening to lectures from scientific professors and practical agriculturists, who will be employed to give instruction in Agricultural Chemistry, embracing the nature of the soil in this State, and its adaptation to the different productions of this latitude, and the best means by which the different kinds of soil may be enriched; in Practical Mechanics, embracing the structure of buildings, fences, and farming tools, with reference to durability, utility and economy; in Geology, embracing the mineral resources of the State; in Agricultural Jurisprudence, embracing the laws relating to deeds of conveyance, trade, and agricultural pursuits; in Animal and Vegetable Physiology, embracing the kind of animals adapted to the climate, the best methods of rearing them, the diseases to which they are subject, their comparative expense and the means of their improvement, and the culture of the different kinds of grain and fruits. In addition, the students in this department will be allowed to recite in those classes in the other departments for which they are fitted.

This department will be fully organized at the earliest period practicable.

PREPARATORY DEPARTMENT.

This department furnishes peculiar facilities for a thorough elementary English education, and embraces such studies, including the elements of the Latin and Greek languages, as are necessary for admission in full into the classical course of the college department. Peculiar attention is paid to the pronunciation, etymology, and the syntax of these languages. The object is not to hurry pupils from one author to another, but to make them perfectly familiar, before entering college, with all the elementary principles, and thus, at an early period in their literary course, forming a taste, a relish, for these languages.

Instruction is given in this department in all the branches of the following

COURSE OF STUDIES.

FIRST YEAR.

First Term	Andrews and Stoddard's Latin Grammar. Andrews' Latin Reader. Mitchell's Geography.
Second Term	Latin Reader. Sophocles' Greek Grammar, and Greek Lessons. Arithmetic.
Third Term	Cesar's Commentaries. Greek Lessons. English Grammar.

SECOND YEAR.

First Term	Cesar's Commentaries. Felton's Greek Reader. Book-Keeping, single entry.
Second Term	Cicero's Orations. Greek Reader. General History.
Third Term	Cicero's Orations. Greek Reader. Algebra, ... *Davies.*

Students who attend the University temporarily can recite in any of the classes of the foregoing courses of study for which they are prepared, and in which they can maintain an honorable standing.

Terms of Admission.

Candidates for admission to the Freshman Class of the Classical Course, must be able to sustain an examination in English Grammar, Geography, Arithmetic, Algebra, through simple equations, Andrews and Stoddard's Latin Grammar, Andrews' Latin Reader, three books of Cæsar's Commentaries, Cicero's Orations, Sophocles' Greek Grammar and Greek Lessons, and Felton's Greek Reader, through the Cyropædia. Much will depend on the thoroughness with which preparations are made.

For admission to the Scientific Course, students will be examined in all the English branches of our preparatory course of studies.

The preparatory department is open for the reception of any student of good moral character, who is of suitable age to be removed from the restraints of domestic life, and possesses the ordinary capacities for the acquisition of knowledge.

All applicants for admission must present testimonials of good moral character; and students coming from other colleges, a certificate of honorable dismission.

Location and Buildings.

This University is located in Granville, Licking county, Ohio, three miles north of the Central Ohio Railroad, six miles west of Newark, and twenty-eight miles east of the city of Columbus; in an uncommonly healthy locality, and in a community distinguished for intelligence and morality.

As the site of the present college buildings is a mile and a half from

town, the Trustees have selected and purchased a plat of ground of twenty-seven acres, embracing a beautiful elevation, in the immediate vicinity of town, as the site of the new university buildings. One new edifice, one hundred and thirty-three feet long and four stories high, is now in process of erection.

Endowment.

In the spring of 1853, an effort was commenced to raise an endowment of $125,000 for this institution. At this date, Nov. 10, 1854, about the sum of $70,000 has been pledged; which, with what had before been raised for endowment purposes, makes the present resources of the University, aside from its library, apparatus, buildings, and other real estate, to consist of about $80,000. But to carry out the plans adopted by the Board of Trustees, and erect suitable buildings, the completion of the endowment effort is indispensable.

Literary Societies.

The Caliopean and Franklin Societies have meetings weekly, in their own halls, for exercises in essays, criticisms, orations and debates. They each hold one public exhibition during the year. They have, distinct from the University, very valuable libraries, embracing many of our most choice literary, historical and philosophical works; and valuable cabinets of minerals and curiosities.

Discipline.

The officers have their rooms in the college edifices, and, during hours appropriated to study, maintain quietness and good order in the halls and over the premises. They also keep a register, showing the

absence of each student from all exercises upon which his attendance is required: also, the degree of excellence or deficiency of each performance, and his general deportment. This, if requested, is, at the close of the term, transmitted to parents or guardians, and is open at all times to their inspection.

The laws enacted by the Trustees for regulating the internal affairs of the Institution, will, at all times, be enforced by the Faculty with firmness and impartiality. When kindness and an appeal to honorable principles or private admonition, will secure the end aimed at in these regulations, *they* will always be preferred and employed; but when these fail to influence any young man faithfully to improve his time and opportunities, his friends will be informed of his delinquencies, that he may be removed from the Institution, if possible, without public censure.

Miscellaneous.

Prayers, with the reading of the Scriptures, are attended to in the college chapel, morning and evening, at which all the students are required to be present.

Every student is required to attend public worship on the forenoon and afternoon of each Lord's day.

Every student, on entering the Institution, is furnished with a copy of the laws; and no excuse is received for ignorance of its contents.

The payment of term bills is invariably required in advance.

Students will find it for their interest as well as comfort to bring with them what furniture they may need in their rooms, such as sheets, towels, bed spreads, &c., as they sometimes find it inconvenient and expensive to furnish themselves with these articles after their arrival. Bedsteads, chairs and tables, may usually be obtained about College.

Indigent, pious young men, of suitable character, who have the ministry in view, are admitted as beneficiaries of the Ohio Baptist Education Society.

By the liberality of Wm. S. Denison, Esq., provision is made for the free tuition of forty beneficiaries of this society, provided they are strictly indigent, and have no parents able to educate them.

Division of Terms and Expenses.

The academic year is divided into three terms. The first term consists of twelve weeks; and the second and third terms consist of fifteen weeks each.

The tuition in the college department is eight dollars for the first term, and ten dollars each for the second and third terms. The tuition in the agricultural department is ten dollars. The tuition in the preparatory department is six dollars for the first term, and seven dollars and fifty cents each for the second and third terms. The charges for incidental expenses are seventy-five cents for the first term, and one dollar each for the second and third terms.

Room rent is, for the first term, one dollar and seventy-five cents, and two dollars each for the second and third terms.

Good board is furnished by the Steward at one dollar and seventy-five cents per week. By associating in clubs, students obtain board in families at from one dollar to one dollar and twenty-five cents per week.
